On-Screen Marking (OSM) Solution

Our OSM Solution enables Evaluators to assess scanned answer scripts digitally, eliminating the need for physical handling and speeding up the evaluation process. It ensures accuracy and consistency through automated checks, standardized marking schemes and real-time monitoring.

With built-in security, audit trails and analytics -OSM enhances transparency, reduces errors and delivers faster, reliable result processing at scale.

Key Features

- Role-based access with secure, encrypted marking environment
- Automated marking workflows with standardization and moderation controls
- Real-time tracking of evaluator productivity and progress
- Built-in audit trails and analytics for accuracy, transparency and faster result

Bring-Your-Own-Device (BYOD)

What is SPOT?

SPOT stands for Secured Personal-Device Operated Testing – a smart solution for digital, secure, and paperless assessments.

Why SPOT?

- Paperless & Cheat-Proof: Conduct exams securely, with zero paper and minimal cheating possibilities.
- Automatic & Accurate: Say goodbye to manual grading – automate surveys, quizzes, and polls.
- BYOD Friendly: Students mark attendance and take quizzes using their own smartphones.
- Fast, Scalable Grading: Evaluate thousands in minutes with intelligent auto-grading.
