

DEXIT's AI & Live Proctoring Solution enables organizations to conduct secure, scalable, and trustworthy examinations anywhere, while maintaining the integrity and credibility of the assessment process.

AI Driven and Live Remote Proctoring System

What is DEXIT AI & Live Proctoring ?

DEXIT's AI & Live Proctoring Service is a comprehensive remote examination monitoring solution that combines **Artificial Intelligence (AI)-based surveillance with real-time human invigilation** to ensure examination integrity and prevent malpractice.

The solution continuously monitors candidates through their webcam, microphone, screen activity, browser behavior, and identity verification mechanisms. AI automatically detects suspicious activities and generates alerts, while trained live proctors review, verify, and intervene whenever necessary.

This combination provides the **scalability of AI** and the **accuracy of human oversight**, making it ideal for high-stakes examinations, recruitment tests, certifications, admissions, and academic assessments.

Benefits

Enhanced Examination Security

- Prevents impersonation and cheating.
- Detects suspicious activities in real time.
- Creates a defensible audit trail.

Scalability

- Supports thousands of candidates simultaneously.
- Suitable for nationwide and global examinations.

Cost Optimization

- Reduces dependence on physical test centers.
- Minimizes travel and infrastructure costs.

Improved Candidate Accessibility

- Enables candidates to appear from any approved location.
- Increases participation and convenience.

Real-Time Monitoring

- Immediate detection and intervention.
- Faster response to examination violations.

Comprehensive Evidence Management

- Video recordings.
- Screenshots.
- Incident logs.
- Candidate activity reports.

Regulatory Compliance

- Supports examination governance and audit requirements.
- Provides transparent documentation for dispute resolution.

Why DEXIT ?

- AI-powered monitoring and fraud detection.
- Experienced live proctoring teams.
- Secure browser technology.
- Identity verification and authentication controls.
- Real-time dashboards and monitoring.
- Complete audit trails and evidence management.
- Scalable architecture for small to large-volume examinations.
- Suitable for recruitment, admissions, certification, skilling, and academic assessments.
