

AI Driven and Live Remote Proctoring System

In today's Digital world with fast changing dynamics – there is a huge need for Automating processes to bring about efficiency, standardization as well as transparency.

DEXIT with its integrative approach and expertise in Software development, Cyber Security, AI has introduced a range of Solutions designed to address these needs. DEXIT is India's leading Organization in providing End to End Examination Services to Government Organizations, Universities, Educational Institutes and large Corporates. It therefore understands the mindset and requirements of this space. The Solutions have been designed to ease certain bottlenecks being faced due to manual processes and reduce dependencies that would help to drive efficiencies and better results.

Candidate Remote Proctoring

With the current issues related to Social Distancing and Candidates inability or in some case unwillingness to travel due to certain restrictions, the need of the hour is Proctored Exams without the candidate requiring to physically come to the Test center to take the Exam.

How We Can Help You
